

Commercial Quality For Everyday Applications

Restaurants & Hospitality

Chicago Faucets in **healthcare offices**

We're in the finest hospitals all across the country. That same quality makes Chicago Faucets an ideal choice for dentist offices, physician offices, and medical clinics.

Chicago Faucets in **retail**

Major retail chains use Chicago Faucets to enhance the look and experience in stores. That same style and performance is perfect for the shops and strip malls in your town.

Chicago Faucets in **offices**

We've earned our reputation as a solid workhorse in high-traffic commercial locations. That same dependability makes Chicago Faucets an ideal choice for offices throughout your community.

Chicago Faucets in **restaurants & hospitality**

We've been a welcome guest at some of the finest hotels and restaurant chains in the country. Chicago Faucets has products that will keep the business cooking at local restaurants and lodging locations.

The highest quality commercial faucets for everyday applications.

The solid brass, hand-crafted quality of our products has made Chicago Faucets the preferred choice in the finest universities, hospitals, and corporate campuses around the country. You can bring that same level of quality – every day – to all of your projects, at an affordable price.

Over the lifetime of our products, the value of Chicago Faucets is second to none. Our faucets are designed specifically for commercial use, built to last longer than conventional faucets, and backed by the industry's strongest warranties. Our dedicated, experienced customer and technical service operations, as well as our manufacturing, are based right here in the USA. Best of all, we offer several products that are affordably priced. That's what makes them a smart investment for businesses in your area – from the dentist's office to the pancake house.

From the heart of the United States, Chicago Faucets started in 1901 with a simple mission statement – *Quality First*. Our belief that quality is the cornerstone of success has served us well over the past century. We think this same commitment to quality can benefit you today...and every day.

Sensor Operated Faucet with Thermostatic Mixing Valve

116.606.AB.1 The E-Tronic® 40 features advanced, above-deck electronics for dependable operation, easy installation, and easy maintenance. The dual-beam infrared sensor responds quickly to provide a precise amount of water when a user is present. Ideal for installations where water conservation and improved hygiene are desired.

Available in
ECAST®

Metering Faucet

802-665CP A durable, one-piece, solid brass body with water-conserving metering push handles. The faucet operates with a simple push on the handle and shuts off automatically based on an adjustable operating time of 2-15 seconds. It is an ideal faucet for high-traffic, high-use locations.

Available in
ECAST®

Service Sink Faucet

897-CP This service sink faucet is an essential addition for the janitorial area of any building. It features a wall brace, a pail hook that is integrated into the spout, and an atmospheric vacuum breaker to prevent contaminated water from back-siphoning into the drinking water.

Lavatory Sink Faucet

420-CP A new, affordable option for restroom installations. The 420-CP combines the durability of solid brass construction with the dependability of a time-tested ceramic mixing valve. Easy to install and just as easy to maintain. The 420-CP provides single control operation and is ideal for commercial lavatories.

Available in
ECAST®

Pre-Rinse Spray

90-LABCP This pre-rinse spray valve is designed to meet the rigorous demands of any food service application. The 90 Series features a durable metal body, brass stem valve, stainless steel nozzle, and solid brass handle. The versatile design allows the 90 Series to be used in pre-rinse, filler, and hose reel locations.

Available in
ECAST®

Your Success Is Our Business

For over 100 years, we have helped businesses succeed by delivering the highest quality commercial faucets backed by unrivaled support. With engineering, foundry, manufacturing, and assembly centrally located in the midwest, we control every aspect of our product design and manufacturing. Every product we make is for business use and designed to last longer than other faucets.

In addition to the products on this page, we offer thousands of other product configurations that can be viewed on our website, chicagofaucets.com. With a national network of plumbing distributors, we can quickly provide a faucet to meet your specific needs.

High-tech innovation.

With the electronics located above-deck, our electronic faucets are easy to install and easy to operate. Tested to over 4 million activations, you can count on their reliability.

Easy, adjustable conservation.

Our adjustable metering faucets deliver a precise amount of water for an adjustable time period – as low as two seconds – helping to reduce water usage significantly.

Restaurants & Hospitality

Unmatched **durability.**

Solid brass construction and permanent mold casting of our products delivers unmatched durability. That makes our faucets ideal for any high-use commercial location.

Long-lasting **value.**

Our faucets are built to last longer and are backed by the industry's best warranties. That means fewer replacements, fewer repairs, and a lower investment over time.

Interchangeable **design.**

Designed to meet the rigorous demands of any food service application, the versatile design allows the 90 Series to be used in pre-rinse, filler, and hose reel locations.

ECAST, from Chicago Faucets, is the line of durable, high-quality brass faucets and fixtures that are designed and manufactured with less than one quarter of one percent (0.25%) total lead content by weighted average. These products are intended for installation in locations where state laws and local codes mandate lead content levels or where lead content is a concern.

If you think ECAST is appropriate for your business, be sure to talk to your Chicago Faucets sales representative for more information.

A Commitment To Water Conservation

We are a member of the U.S. Green Building Council and support the Leadership in Energy and Environmental Design (LEED) Green Building Rating System™ to measure efficiency and sustainability of buildings.

We are a proud partner with WaterSense, sponsored by the EPA and designed to protect the future of our water supply by promoting efficiency and enhancing the market for water efficient products, programs, and practices.

We are a charter sponsor of the Alliance for Water Efficiency, dedicated to the efficient and sustainable use of water. It brings together a diverse range of stakeholders to advocate water efficiency and conservation.

Built To Last

Sustainability also means reducing the consumption of raw materials other than water. When you install Chicago Faucets, you're getting products that are designed to last. Longer faucet life means fewer replacements, reducing consumption of the materials that would otherwise be used to manufacture additional faucets. And not only do we back every faucet we sell with a limited lifetime warranty, we constantly review the raw materials used in our products, analyzing their impact on the environment and making improvements whenever we can.

These are just a few of the ways we can help you with your commitment to sustainability and conservation. For more ideas, visit chicagofaucets.com. When you're ready to start achieving dramatic water savings, we'll be ready to provide you with outstanding customer service, reliable technical support, and, above all, the best faucets you can buy.
