

Pre-Rinse

Triple Force™ and 90 Series

**CHICAGO
FAUCETS®** 
a Geberit company

The Art in Water Saving

Chicago Faucets pre-rinse sprays are specifically designed for **superior water conservation, ultra-high performance, and industry-leading reliability.** The Triple Force and 90 Series products have been specifically designed to save time and substantially reduce energy and water costs for restaurants, commercial kitchens, and institutions.

Conservation and Savings

The Triple Force and 90 Series provide superior water conservation without compromising product performance.

*Based on 3 hours of daily usage and industry average utility costs, industry standard 1.42 gpm, and "low-flow" competitor rate of 1.28 gpm.

Work Time Reduction

The Triple Force and 90 Series provide incredible cleaning capability to reduce the time needed to complete the job.

Down Time Reduction

The Triple Force and 90 Series are backed by Chicago Faucets' industry leading **5-Year Warranty.**

Triple Force™ — A Revolutionary New Instrument for the Kitchen

The Triple Force™

Not every kitchen is the same and not every day in the kitchen is alike. Featuring a patented multiple spray nozzle system, The Triple Force allows the user to change patterns effortlessly to complete almost any cleaning job. The unique three-tip nozzle handles everything from baked-on sauce to the gentle rinsing of fine stemware. The heavy-duty, water-conserving design will save time and substantially reduce energy and water costs for restaurants, commercial kitchens, and institutions.

- 3 unique spray patterns to handle any job
- Low-flow, high-efficiency nozzle system
- Lower flow rate than industry standard (0.91 gpm)
- Industry's best cleanability time
- Industry's best warranty – 5 Years
- Available on complete fittings, interchangeable with all brands

Tool-Free Multiple Spray Pattern

15° fan spray for general cleaning applications. 0.91 gpm flow rate @ 60 PSI.

Solid spray pattern with high-impact for tough jobs. 0.99 gpm flow rate @ 60 PSI.

Ultra low-flow for superior water conservation. 0.92 gpm flow rate @ 60 PSI.

Codes & Standards

- ASME A112.18.1/CSA B125.1
- ASTM F2324
- Certified to NSF/ANSI 61, Section 9 by CSA

90 Series Low-Flow Pre-Rinse Valve

The 90 Series

The 90 Series features a durable brass body, brass stem valve, stainless steel nozzle, and solid brass handle – providing the strength to stand up to the daily grind. The versatile, interchangeable design allows the 90 Series to be used in pre-rinse, filler, and hose reel applications. Best of all, the 90 Series is built for the long haul and allows you to easily service or replace the nozzle, bumper, and handle for years of use.

- Chrome plated, brass body for superior durability
- Low flow rate (1.0 gpm) for water, energy savings
- Nickel plated brass valve stem operates smoothly
- Stainless steel activation spring for dependable operation
- Industry's best warranty – 5 years
- Available on complete fittings, interchangeable with all brands

Other 90 Series Products

45° Angle Pre-Rinse

Features a flow rate of 1.0 GPM @ 60 PSI. It is perfect for heavy-duty use in industrial kitchens.

90-ANGABCP

Hose Reel Spray

Features a flow rate of 2.5 GPM @ 60 PSI. A perfect option for heavy cleaning applications.

90-HABCP
